

## Year 8 Reading Plan Prompts

Less challenge	Ask what I already know about this topic?	Predict what I think might be in the text.	Identify new words and check their meaning	Write key words to remember what has been read	Can you make <b>ANY</b> connections between the text and any experiences you have had (it could be a book or film you have seen)		
More challenge	Read silently to understand	Re-read to get a clearer idea of the message	Ask myself what is needed to complete the task or problem	Visualise to picture in your mind what is actually happening	Highlight key points from the text	Tag important information so I can return to it	Skim to get an overall picture (you don't need to read every single word - perhaps the first, middle and last paragraphs)
Most challenge	<b>**Discuss the content with a partner to compare your understanding**</b>	Summarise the information to condense what it was	Identify the most and least important information
