

PiXL TT App

Things to know:

Basic arithmetic has been identified as a cause for concern in numerous examiner's reports over the years from published report following GCSE exams.

Within the first 5 months of releasing the app, more than 35 million questions had been answered in the app across more than 1200 schools.

With regular use it has been shown to build confidence.

PiXL TT App

What does the app do?

Allow learners to freely practice their tables at their own pace or against the clock with the aim of reducing the time taken to recite their tables within 5 seconds per question.

Promote engagement through games.

Track confidence levels through awarding trophies.

Highlights the results to their teacher.

PiXL TT App

How do they access it?

Your son/daughter have been given Maths App login details.
They can use this to access the TT App also.

How should I encourage them to use it?

If the games aren't encouraging enough already, we would recommend setting up a routine so it becomes expected:

- 1) Short bursts over breakfast,
- 2) Spare 5mins before they go out and play/meet friends,
etc.

PIXL 80% 100%

Exit 'Trophies' and return to menu

The percentage shows the confidence level. The number shows how many areas need to be worked on.

- I know my 2 times tables 100%
- I know my 5 and 10 times tables 92%
- I know my 2, 5 and 10 times tables 96%
- I know my first half of the 3 times tables 100%
- I know my second half of the 3 times tables 100%
- I know my first half of the 4 times tables 100%
- I know my second half of the 4 times tables 100%
- I know my first half of the 8 times tables 100%
