

This guide is to inform you of a new behavioural system called Class Charts we are now using at St Martins School. Class Charts provides super -fast behaviour management tools which will allow us to analyse student behaviour overtime. It now allows us to give both positive and negative behaviour referrals of which you'll now be able to see. You'll be notified when your child reaches a certain milestone and if they receive various negative behaviour referrals. This system will allow us to recognise the positives at St Martin's School and if need be, the negatives.

We feel very honoured, and are excited at the adventure that lies ahead. We are delighted to invite you to be involved in this event. Both parents and/or careers and pupils will have already received a personalised log in and guide on how to start monitoring the individual's behaviour. If you are yet to receive this information please let reception@stmartins.caerphilly know and we will be able to provide you with the required information. Class Charts can be used on the App or Online at www.classcharts.com
