THE SEREN ACADEMY NATIONAL LAUNCH EVENT

You are one of Wales' brightest and most academically talented students. And that is why **YOU** have been selected to join the Seren programme this year.

We are therefore delighted to invite you to attend our official National Seren Academy Launch Event

This packed celebratory event will introduce you to the Seren Academy and all the exciting activities and wide-ranging opportunities you can take advantage of both nationally and within your regional hub.

This year's national programme is our most extensive so we're looking forward to telling you about the support on offer to help you with your ongoing A level studies, and your applications to leading universities in Wales, the UK and possibly overseas!

Hosted by two previous Seren learners, Jacques Marquis and Rosa Humphreys, you will hear how they embraced the opportunities available to them and have gone on to extraordinary heights at world leading universities.

We have a **live Q&A panel session** where you can directly put your questions to previous Seren learners, university staff, and parents, and hear their different experiences.

Seren works with some of the best universities, institutions and organisations, all of whom share the same commitment to help you aim high.

By attending the launch event, you'll get a taste of the type of academic support, masterclasses, and guidance from university admissions tutors that Seren can offer you. And you'll hear about our **exclusive summer school** opportunities only available to Seren Academy year 12 learners!
